First name: Ryan

Last name: Oden

Organization:

Title:

Comments: Class 1 ebikes make most practical sense on our trails. I commute with a class 3 ebike and I've had some close calls almost crashing and/or coliding with others when on some of our bike trails. Class 3 gets you moving faster than you expect and class 2 is just a moped. Please keep our trails regulated to class 1 ebikes only for the safety of our bikers, hikers, wildlife, and all other trail users alike.
