Last name: MESSENGER

Organization:

Title:

Comments: Open" basis.

By allowing Class 1 on non-motorized trails on a case by case basis and upon completion of a review process, the USFS offers flexibility at the local level and preserves maintenance funding sources that can be pursued by hikers, equestrians, and mountain bikers to help maintain thousands of miles of trail throughout the United States. Class 1 e-bike technology is quickly becoming ubiquitous, so the above approach also makes enforcement easier and reduces consumer confusion.

It is my understanding that the above approach is also in line with the wishes of People for Bikes, the International Mountain Bicycling Association, multiple mountain bike manufacturers, as well as my own local mountain bike organization, the Evergreen Mountain Bike Alliance.

Thank you kindly,
Matthew Messenger
