Comments: Please, Please, Please

Do not ban e bikes. My husband is 76 and the only way he can bike is with an ebike. We love to be in the great outdoors and enjoy nature. Having an ebike allows us to bike together. If there are some people being irresponsible,(I've seen regular cyclists in this category as well), deal with them....don't make a blanket policy that hurts people who are simply trying to get exercise and enjoy the beauty of our country

Thank you
