Comments: Prohibiting Class 1 and 2 e-bikes will effectively prevent the handicapped and disabled Americans from enjoying the federal trails. Many older Americans are now able to enjoy the freedom and adventure of riding with the electric bikes. Those pleasures should not be exclusive to the younger and physically stronger Americans. Electric bicycles are the two-wheel equivalent of electric wheelchairs and 3-wheel scooters and should be considered as mobility devices. Our local parks in Macomb County Mi. allow e-bikes and one-wheels on the single track trails with absolutely no ill effects to the trail or river habitats.
