First name: Steven

Last name: Ferrusi

Organization:

Title:

Comments: Electric bikes are NOT damaging the trails.

E-Bike riders will help maintain the trails = more trail help.

E-bikes are safer. Less injuries

E-motorcycles will be managed by riders on the trail.

There will be no problem that can not be address by region if there is an issue.

If a rider of motorcycle finds out it is illegal. They will be MUCH LESS likely to ride. Less trail issues.
