Title:

Comments: Please allow full access to class 1&2 ebikes. My wife and I are in our 60's and love taking a 40 mile rides. We even ride with our grand kids now. I've bought 6 of the radrover class 2 ebikes and my family has a blast riding in our state and national forests. I encourage the forests service leadership to actually ride one of these bikes out in our beautiful forests before making any decisions restricting there use.

Regards

Dan Schiller
