Comments: Thank you for the opportunity to provide feedback on this topic. I believe class 1 eMTBs should be included in the same category as regular non motorized mountain bikes. I would not want the rules changed to allow motorized vehicles beyond the class 1 eMTB. I ride traditional mountain bikes and have never ridden a eMTB but as we age it would be nice to have the option to have just a little help some day with the minimal power added for class 1 eMTBs.

Thank you.
