First name: Bob

Last name: Wright

Organization:

Title:

Comments: I find riding trails safer than the street. My age is 71 and have been riding for a lifetime. Now some hills are getting more difficult, climbing. This next year I will be considering a mountain bike with peddle assist. I am not a fast rider and enjoy the dirt fire roads as well in the National Forest. The beauty of riding in the National Forest is unparalleled, please do not take this joy away.
