Comments: I support the following:

1. Adopt Class 1 e-bikes as non-motorized transportation.
2. Adopt Class 2 and 3 e-bikes as motorized transportation.
3. Allow Class 1 on non-motorized trails upon completion of an environmental review and public comment process, driven by local forests and/or districts.
4. Prohibit Class 2 and 3 on non-motorized trails.
5. Encourage programmatic NEPA review of eMTB impact on non-motorized trails, at the District, Forest or Regional level, to ease the review burden on a trail by trail basis.
6. Approach eMTB access by using a "Closed Unless Signed Open" basis.

Thank you,

John Wall
