Title:

Comments: EBikes 10/2020 comments: The Maah Daah Hey Trail Association (MDHTA) has no problem with establishing the Ebikes categories. The use of Ebikes on now non-motorized trails does concern us, the RTP grant process is split into non-motorized and motorized categories and the MDHTA does not want to be caught in the middle of Ebike classification by the FS administration of these RTP trail projects. We, as a group, want to keep non-motorized trails as non-motorized trails.

If an existing trail were changed to include category 1, pedal assisted Ebikes, on an existing non-motorized trail, we would hope to have input into that decision before that decision is final.

Thanks for the opportunity to comment.

Curtis Glasoe MDHTA President.
