Comments: The Stibnite mining should Not be allowed to go on,

There is not enough proof of how much it will harm the Salmon, Steelhead, Lamprey, and ALL other Fish, and wildlife, and the Community,,

The economic picture that is being painted by those in favor are Totally False and it has been Proven Time and Time again by such Mining operations,, Once the extraction would be done they will vanish, forfeit the Small Bond money and the Earth will be left with another NASTY SCAR !!

THE SOUTH FORK OF THE SALMON ,, IS MORE PRECIOUS THAN GOLD !!

Wil Wilkins
