Comments: Thank for soliciting comments. I think it is important to distinguish between pedal assist Class 1 ebikes and throttle controlled Class 2 and 3 ebikes. Class 1 ebikes should be evaluated for use on non-motorized trails as they have the same impact to the trail as non-ebikes. Class 2 and 3 ebikes, however, may have the same impact on trails as other motorized bikes and should only be considered on motorized trails.

Thank you for your consideration.

Rich Horigan
