Title:

Comments: I do not support Ebikes. The whole point of going into the wilderness is to enjoy peacefulness and serenity. Many of us live near cities and spend thousands of dollars to travel to forests to enjoy tranquility. Forests are shrinking ebikes have millions of miles to travel on streets .

Please preserve the sanctity of the environment. Not to mention the anxiety it causes to animals who are becoming endangered on a daily basis. This is a selfish proposal. These people who are advocating for this idea are trying to destroy our pristine environment. what's next a McDonald's and gas station for their convenience?

I think Teddy Roosevelt would be disappointed if he knew Ebikes were being proposed.

Please do not move forward with this idea.
