Comments: Opening up trails to the Ebikes is an important issue that needs to be looked at. I have two friends who both are medically handicapped and can continue riding only on a bike pedal assist only I think it is very important that pedal assist be allowed on mountain bike trails. E bike with no pedal is a different story I feel a certain class of your bike needs to be determined and allowed. Pedal assist is much different than total Electric bike and authorities need to be educated on the difference!
