Comments: I currently own an e-bike. I can not go any faster than my friends who do not own one. I can only go further than I would be able to otherwise. I have medical conditions that prevent me from being able to ride a traditional bike like I used to, but the e-bike allows me to participate at their level now.

I have a few other friends in the same scenario as me. ANYONE who I've let pedal my bike immediately realizes that my e-bike will do no more damage to the trail than a traditional bike will.

PLEASE consider riding one to fully understand their ability.
