Comments: Please do not treat eBikes as motorized vehicles. I dirt bike and mountain bike and feel very strongly that eBikes, their trails, and their access is an entirely different sport than dirt biking. Mountain bikes/eBikes Can Co-exist much easier with hikers and equestrians than dirt bikes. It's in everyone's best interest to keep these trails separate. EBikes still require much more human exertion than motor bikes and are not the same as a mechanized, high powered dirt bike!
