First name: James

Last name: Anderson

Organization: Back Country Horsemen of Washington

Title: Director

Comments: I believe that the proposed changes concerning E-bike use and management seem to be quite fair. In my experience each ranger district seems to implement policies in their own way which can confuse users when they move from district to district. I don't know how that might play out with this policy. The boundaries of one property ownership to another has always been a problem when it comes to legal usage. (motorized vs non-motorized) Education, signage and enforcement are the usual answer.

Thank you for the chance to comment

Jim Anderson
