First name: Carla

Last name: Hervert

Organization: PeaceHealth Sacred Heart Cardiovascular Wellness a

Title:

Comments: E-bikes should not be allowed where non-motorized traffic is allowed, because of environmental damage, disturbing wildlife, ruining the wilderness experience for others, & so many other obvious reasons.

The e-bike can reach up to speeds of 55 mph!

Please withdraw any plans to allow e-bikes ANYWHERE near wilderness areas!

We spent a lot of time in wilderness areas, & these special areas need to protected!

Thank you,

Carla & Fred Hervert
