Comments: I am a mountain biker. I have been mountain biking for more than 20 years. I support access to all areas for mountain bikes, however once a motor or engine of any kind is attached to a mountain bike it no longer is still a mountain bike. At that point it is a motorized vehicle. I see first hand on my local trails the destruction that motorized bicycles cause to the trails and the conflicts they cause with mountain bike riders. E bikes should not be allowed on any mountain bike trails, they should be restricted to areas where other types of motorized vehicles are allowed. Please do not allow motorized bicycles to ruin mountain bike trails.
