Comments: Request To Extend Public Comment Period For The Stibnite Gold Project Draft EIS

Dear Mr. Perdue,

I am requesting that the public comment period for the Stibnite Gold Plan of Operations Draft (DEIS) Environmental Impact Statement be extended 75 days for a total comment period of 120 days. The DEIS took the Forest Service several years to write. An extension is required in order to provide the opportunity for meaningful public participation; and the 75 day extension for public comment is in the best interest of the community and the environment. The scope, complexity, and impact of this project is too large to have the comment period shortened.
