Comments: I am an avid hiker. In years past, I thruhiked the AT, PCT, CDT, not to mention many other shorter trails. Sadly at 72, my legs are giving out and probably no longer will I be hiking in our National Forests. BUT, I am totally AGAINST e-bikes even though you may think they are meant for people like me. NO, our forest deserve the continued peace of quiet of foot steps and hooves. Please do NOT change your rules to allow this intrusion. Thank you.
