Title:

Comments: I do not see any reason why An E bike should be treated any differently than any other sort of bicycle. I personally find the use of my E bike to provide me with a much broader range of access for enjoyment of areas that I would never see otherwise and at age 61 it is not practical for me to get to those areas in any other method of transportation

Further it helps promote exercise an therefore health of the users while increasing our appreciation of the National Forest lands.
