Title:

Comments: I am writing to request that an extension be granted for the public comment period for this DEIS, for a full 120 day comment period. I am in the midst of wading through this document that was several years in the making. This is a very large document with much information to process, as well as many incomplete and outdated analyses presented. To provide truly "substantive comments" I have much research to do myself that will take time. The potential impacts of this proposed project are very significant. If the Forest Service is honestly interested in the public's participation in this process, the comment period must be extended.

Thank you for your consideration
