Comments: I'm for class 2 Ebikes on all bicycle trails. I been an avid bicycle rider all my life and mostly single track mountain bike. I'm 69 with Asthma and my wife is 67 with both knee's replaced. We still have a love of the outdoors and exercise but we need a little help on hills and long grades. We pay taxes and should be entitled to ride wherever bicycles are allowed and should not be singled out because of our disabilities.
