Comments: I am fully in support of allowing e-bike use on non-motorized trails, as it allows individuals who may have a physical disability to better access our public lands. E-bikes are a great are a great stepping stone into the outdoors that is accessible to the crowd who might otherwise take a dirtbike, and the e-bike will be much less damaging to the multi-use trail in question as well as cheaper and friendlier to the environment. Anything we can do to incentivize this transition is a boon to our trail networks.
