Title:

Comments: Do NOT allow ebikes anywhere where they are currently not allowed.

That is, into any wilderness areas or to any National Parks or Recreation Areas where motorized vehicles are not allowed.

ebikes have motors! Do you understand?! They have motors!

Therefore they must continue to be treated as motorized vehicles, period!

Capable of going 55 miles per hour, ebikes have a great potential to destroy and degrade our national lands, destroying wildlife and its habitat and everything else!

Do NOT allow ebikes into our national parks and recreation areas or any other federal lands!

Thank you.
