Comments: Ebikes should be treated the same as regular bikes on US Forest Service Bike trails. Do not classify them as motor vehicles. We deserve to be able to ride in the woods with other bike riders. I peddle my Ebikes just as traditional bikers do. Start with all bike trails open to all Ebikes and only then close if use is inappropriate. Do not start out with all trails closed to Ebikes. My Ebikes does not cause any damage to trail that is not also caused by traditional bikes. Thank you for your consideration
