First name: VALERIE

Last name: NORDEMAN

Organization:

Title:

Comments: Please do not allow any electric bikes or bikes of any kind within our national forest. There are fewer and fewer places to get away from "machines", to take ourselves and our animals on a trail or dirt road without worrying about a fast moving vehicle coming around the corner from above or below us that will startle us or cause our animals to bolt into the woods. There are plenty of places to take motorized vehicles. Please save some of our beautiful countryside for non motorized travel.
