First name: Cynthia

Last name: Groom

Organization:

Title:

Comments: I am definitely opposed to allowing eMTBs on single track trails. Hikers, equestrians and dog walkers and mountain bikers will be adversely impacted if this happens. Possibly "modified" ebikes would populate these trails and limit recreational funds. There are many safety concerns with this possibility. Horses and dogs are reactive to silent movement and could increase accident probability. Please keep nonmotorized trails completely non motorized.

Thank you for taking comments.
