Title:

Comments: I am strongly opposed to this plan. As a long time hiker and kayaker, what I cherish most is the peaceful quiet and nature sounds that I can only find in the great outdoors. Listening to electric bikes would not only be disruptive to me, but I imagine it may scare off much of the wildlife whose habitats we've encroached upon too much already. I am also concerned about trail safety for hikers if others are zooming around at high speeds! Lastly, many dirt roads have been damaged by people driving on them in muddy conditions, and I imagine these bikes would do the same to our trail systems. Thank you for considering my concerns.
