Comments: I own a Giant Trance 2021 e mtn bike, with a Park City 'tag' making me legal to ride. The e riders are first class, they know the rules, respect all normal hike/bike laws, and are the next huge wave of rec people.

Think of them like Snowbird mountain hosts, spreading the word, Junior Rangers reporting issues and donating for new trails. E bikes DO NOT TEAR up trails, especially as we speak new mtn e bikes are coming on line with much smaller batteries and motors like the new Orbea's.
