First name: Manny

Last name: Pellicer

Organization:

Title:

Comments: I started mountain biking with my father in law 20 years ago. Over that time we have both gotten older, but our love for the sport and the outdoors has never been greater. Last year my father in law was diagnosed with cancer and we both thought we would never ride together again. His ebike has made riding possible again. Ebikes allow people who could not do so otherwise to enjoy the great outdoors and increased access to National Forrests should be supported by all.
