Title:

Comments: Please please please do not allow e-bikes or any other form of motorized vehicles on horse trails. It's so incredibly dangerous for those of us who ride and safe trails are so hard to find now.

Regular bikers, 4 wheelers and other ATV things have already taken over so many "horse" trails that many horse riders don't ride on the trails because they are so dangerous to us even though in many cases it was riding clubs and groups that brushed out and maintained the trails originally.

Again, please don't allow e-bikes on horse trails.

Thanks you.
