Comments: To whom it may concern;

I am writing in regards to the USDA/NFS guidelines for e-bike use on NFS lands. I support the USFS adopting a standard definition for an e-bike separate from a traditional mountain bike. Additionally this definition should be supported by e-bikes being classified in a three-tiered system (Class 1,2,3). Class 1 e-bikes should be allowed on trails that are designated non-motorized. Thank you for keeping trails multiple use and adopting the three tiered e-bike classification system that many states have already adopted in order to help clarify the e-bike use on NFS lands.

Sincerely,

Courtney Feldt
