Comments: I think that e-bikes should be allowed where regular bikes are permitted; as an e-bike owner and hiker, I truly don't believe that an e-bike zipping past me on the trail would be any different than a regular mountain bike. While my e-bike is not a mountain bike, there are some trails that are basically dirt roads where I would love to ride my bike and currently this is not permitted. As an older (not particularly in-shape) person, I can barely keep up with most mountain bikers even though I have a class 3 bike! Please open up access to e-bikers! Thank you!
