First name: Elisa

Last name: Greco

Organization: myself

Title:

Comments: Traveling up to 20-30 mph, e-bikes disrupt wildlife, impact habitat, and ruin the small portion of public lands that are quietly free from motorized vehicles.

Allowing e-bikes will increase trail use and the likelihood of reckless off-trail travel, further impacting ecosystems and causing erosion.

Inexperienced people can go up very steep, rocky, scetchy trails much more easily, then wreck coming down because they are outside of their skill level. I have seen this happen more than once! It is terrifying!
