Comments: Thank you for the opportunity for the Public to comment on FSM 7700 and 7710 which would reviseFS directives to update and clarify guidance on management of ebikes on National Forest system lands.

I am against allowing class one ebikes on trails classified as non motorized.

Let mountain bikes pedal. I say no to allowing class one ebikes on non motorized trails. Do not allow them. Do not reclassify trails. No. The mountain bike community is very vocal. Other communities must be heard as well. Thank you for allowing us to comment and fawn all over you.
