Comments: I am a 71 year old Mt Biker. I have been riding a Mt bike for many years. I purchased an e-bike a couple of years ago so I could continue to enjoying the sport. The e-bike allows me to spend more time on the trails. I still get a good workout I just don't have to pedal quite as hard. I don't have to get off my bike and walk it up the steeper stuff and get in the way of other bikers. I can exercise more stay in better shape and put less demand on the healthcare system with the benefits of an EBike
