Comments: I am vehemently opposed to ebikes on non motorized trails. We must keep some areas open only for natural-powered use such as hiking, horseback and mule trains. There is plenty of space for everyone to do their own thing, so keep non motorized closed to ALL motorized! Electric IS motorized and will surely morph into some radical ebike like all the motorbike and atvs have evolved into radical vehicles and we will lose the pristine quiet and beauty of the backcountry FOREVER!! I ride motorcycles and keep them where they belong so that others may enjoy their outdoor experience without motorized intrusions. I also backpack and ride my horses in the backcountry and DO NOT want my experience disturbed or my safety compromised by motorized anything!
