Comments: Please consider that this will only endanger more lives on our trails. Just last week I saw two, three wheeler E-Bikes traveling fast on a single track trail almost running over hikers feet as they squeezed past them. Mean while our horses were whirling around and almost jumping off the side of the mountain to avoid the fast moving vehicles. People are not on trails to encounter more traffic. One of the reasons we are there, is to use trails as it get away from our modern ways of life.
