Title:

Comments: Please do not allow e-bikes to be on non-motorized trails. The Equestrian community and the hikers by foot will be NEGATIVELY affected by this change. As someone who hikes almost every week (and I do try to hike different trails such as back country and local) I have run into many issues with bikes not knowing passing rules or simply not having care for others on the trail. As an equestrian who uses public horse trails, I have MANY MORE instances of motorized citizens creating a harmful and dangerous situation for myself and others. PLEASE DO NOT ALLOW E-BIKES ANYWHERE NEAR OUR TRAILS.
