First name: Timothy

Last name: Betts

Organization:

Title:

Comments: I am a resident of Pennsylvania, but I travel throughout the country hiking, camping and recreating on forest service and BLM public lands. Our public lands are under extremely heavy use currently, and I fully believe by allowing motorized bicycles on trails that currently are only open to non-motorized traffic will cause more damage to the landscape and increase crowding issues even further. There are already a lot of motorized trails, please leave some available for those who hike, bike and ride horses.
