First name: Janet

Last name: Schneider

Organization: Florida Sport Horse Club

Title: Secretary

Comments: On behalf of the Florida Sport Horse Club, we protest the addition of ANY motorized vehicles to the trails unless it is to provide access for the disabled. Motors mean speed, and people will use them to go as fast as possible. The speed enhances damage to the trails, terrorized the wildlife, and decreases safety for other users. Horses in particular do not react well to fast objects that suddenly appear around them. There are plenty of other places people can use e-bikes and their motorized vehicles-let's keep them out of our wild places.
