First name: William

Last name: Briscoe

Organization:

Title:

Comments: As an avid hiker, I am opposed to opening any trails not currently open to bikes of any kind. The wear and tear on the terrain would be the same as a gas bike or other wheeled vehicle. Most people who use those will NOT be as responsible for taking care of the trails. Also this will lead to a future push for gas powered bikes to be allowed and that will definitely lead to abuse of the terrain and regular hikers. PLEASE DO NOT ALLOW THIS! Thank you.
