Comments: As the Parks move forward with the idea of allowing e-bikes on non-motorized trail please consider:

1) E-bikes can be use just about any place, certainly all roads and trails that do not allow horse...places where backpackers, nature lovers, horseback riders can not go. 2) E-bikes make noise. This sort of noise/sound will scare off much of the wildlife that makes being in the forest areas so wonderful. 3) E-bikes can and do cause fires, can and do explode! What will you do to prevent a forest fire?
