Comments: E-Bikes on non-motorized trails is a very bad idea, especially when these trails are designed for horseback riders and hikers--HORSE AND FOOT TRAFFICE ONLY!! There is no reason that I can see to allow anything motorized on a horse trail, there are plenty of ATV trails for them. I take my grandchildren horseback riding with me, the last thing anyone would want is anything motorized coming at you from either direction. Please stop incringing on the last of America's past~horses and horseback riding!
