Title:

Comments: I am 68 years old and have been an avid mountain biker for over 32 years. Class-1 e-mountain bikes are allowing those of us that were some of the early adapters to continue to ride the trails we have loved for years. We live in Laguna Beach, and in this area, the e-mountain bikers tend to be older and more responsible, especially when it comes to safety and also donating money to sustain and support trails. We have seen no adverse effects from Class-1 e-mountain biking, and during these epidemic times they actually help keep older folks at risk healthier.
