Comments: Please do not open trails to e bike use! I am an ebike owner and a mountain bike rider. There are plenty of places for me to ride my mountain bike now! I have seen what damage is done by overuse of motorized bikes in the Wenatchee Okanogan Forest!

M also primarily a hiker. Mountain bikes are bad enough! I have seen hikers injured by bikes going too fast and hitting a hiker.

The current Covid situation has caused huge over use of our forests! We don't have to make everyone happy! The Forest Service needs to step up and do their job to protect and conserve our forests so future generations can enjoy serenity, safety and the beauty of unspoiled forests!!

Please don't allow these changes!!!!
