Last name: Scott

Organization:

Title:

Comments: I have hiked and backpacked in the wilderness for many years. I always considered myself as a guest. Nature provides a way to be in a quiet place. A place to observe the wildlife. A place to leave behind the noise and busyness of civilization. That experience would be destroyed by a fast, noisy electric bike. It might also be dangerous. So please do not allow E-bikes in wilderness areas.

Sincerely,

Jeanie Scott
