First name: Kelly

Last name: Willett

Organization:

Title:

Comments: Originally, I was opposed to e-bikes. However, after research I found just like other sports, e-bikes can be a useful tool for exploring the backcountry. There are riders I know that want to bike with their spouse but due to injuries or physical fitness levels they are unable to join. My hope is that users will be responsible and courteous on the trails, following trail etiquette.
